# LETTUCE from our Readers

Dear CRACKED,

Why do you call CRACKED a mazagine? I'll bet it was a spelling error that you continued. Am I write?

James Higgins  
Baldwin, New York

No, you're wrong! A *mazagine* is a *magazine* that dares to be different. AND, we don't make spelling mistakes. We go to great pains to see that we are write!

Dear Sir,

Picked up your magazine for the first time and am amazed that you can find humor in these terrible times. The world is in trouble and you waste your time with this frivolity. Why don't you try to do something to make things better?

Mrs. Martha Downs  
Erie, Pa.

We think smiles and laughter make things better. Have you noticed that solutions to problems come easier when you don't take them too seriously?

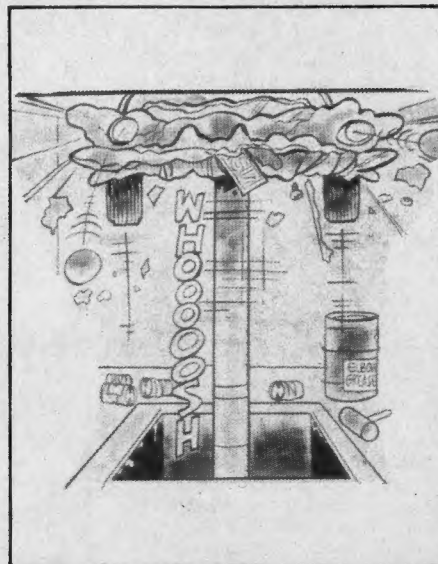

Dear CRACKED,

Your satire on service stations (CRACKED #107) exposes these "highway robbers". I'm glad someone has guts enough to strike back.

Dr. Albert Lawton, M.D.  
Philadelphia, Pa.

You ain't seen nothin' yet! Wait'll you see "CRACKED Interviews a Doctor"!

Dear CRACKED Magazine,

I've been reading CRACKED for 3 years and have seen John Severin sign his name as: O.O. Severin, Nireves, Severino, etc. But never has he signed his work John Severin. Why is this?

Bill Haney  
Waco, Texas

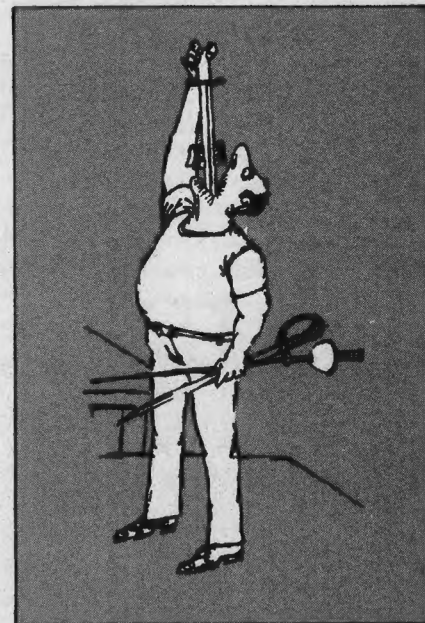

Maybe he's ashamed of himself.

Dear CRACKED,

I'm an old Charles Rodrigues fan. Can't we see more of him in your magazine?

Hopefully,  
John Butler  
Encino, Calif.

Always glad to hear from an old fan. Let's hear it from some young fans!

Dere CRACKED,

Im a yung fan of Charls Roderiges.

On second thought, let's hear it from some middle-aged fans!

Dear CRACKED,

We flipped, we rolled on the floor, we still can't get our breath back. Shut-Ups (issue #108) are hilarious. Especially "Want gravy on your meatloaf?" More, more!

Tom & Mabel Davidson  
Walla Walla, Wash.

Like music to our ears!

Dear CRACKED,  
Just read your 8th annual BIG-  
GEST GREATEST CRACKED. It's  
the best bargain around. Do I have  
to wait a year for #9?

Ray Martin  
Atlanta, Ga.

Of course you do! Annual means  
yearly. But, in the meantime, you  
can get the other four CRACKED  
ANNUALS: GIANT CRACKED, SU-  
PER CRACKED, SHUT-UPS and  
KINGSIZED CRACKED. Along with  
the eight regular issues and the,  
soon to be released, CRACKED  
paperbacks, you should have  
enough to keep you busy until  
next year.

Dear CRACKED,  
I like to read the letters you print.  
I hope you always get letters be-  
cause your answers to them are  
funny. I hope CRACKED Magazine  
does not run out of business like  
Life did.

Leo Fellows  
Syracuse, N.Y.

Dear Leo,  
CRACKED is really Life in dis-  
guise, only don't tell anyone!  
Okay?

CRACKED:

Your cover for CRACKED 107  
was by far the funniest. I've been  
collecting your magazine for a full  
year now and have had my letters  
in your magazine twice and hope  
to have them in more.

Steve McLaughlin  
Pinole, California

Dear Steve,  
We will not print anymore letters  
from you, Steve. Twice is enough!

Dear Sirs,

As an old chicken washer from  
way back. I'd like to congratulate  
you on your chicken soap product  
(CRACKED #108). My barnyard  
smells tolerable now, all except for  
that darn rooster, but he's always  
shied away from washings anyway.  
Complains they're for sissies!  
Thanks for helpin' out us chicken  
cleaners.

Sam Sneed  
Little Rock, Arkansas

Dear Sam,  
Thanks for writing. Your rooster  
sounds like a real chicken to us!

Ever wonder what happens to the old families of television shows? Well, the other night we were laughing through an old Dick Van Dyke rerun, and then later in the evening, suffering through a new Dick Van Dyke episode when we got to thinking, what does happen to families of old television shows? Well, never fear . . . CRACKED has finally found out and will now pass it on to you in this episode of the

# DICKIE VON DORK SHOW

**Tonight's Episode:**

Well, Dickie, it looks like another quiet Saturday night.

*NICE!*

Yeah, too bad! We could have used a funny plot for a change.

Daddy, why don't we turn the channel and watch the movie on NBC like everybody else does?

PRESERVE OUR  
WILD LIFE...  
THROW A PARTY

I've got a better idea . . . why don't we all knock out the front teeth of the shortest one in the room.

Now Dickie, don't go picking on Ammie just because the writers gave us nothing to say for the first half hour. It could have been worse.

What worse? We're only on a half hour to begin with!

PAY YOUR TAXES  
PROMPTLY  
WE NEED OUR  
WELFARE CHECKS

Daddy, I'm going out into the backyard until something happens. You wouldn't want me to blow a whole season's worth of cuteness on just one dull segment!

SHIRLEY TEMPLE'S  
BOOK OF CUTENESS

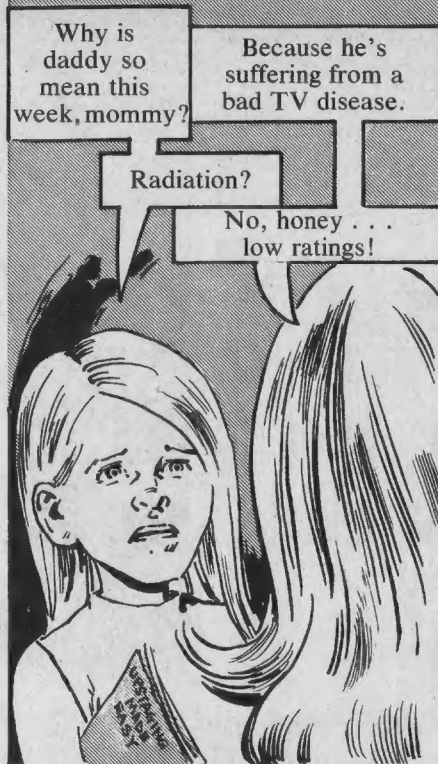

Wait! The door!  
Nobody move!

I'll get it, daddy!

You get it  
and you'll  
get it! Sit  
down and  
I'll get it!!

Why is  
daddy so  
mean this  
week, mommy?

Because he's  
suffering from a  
bad TV disease.

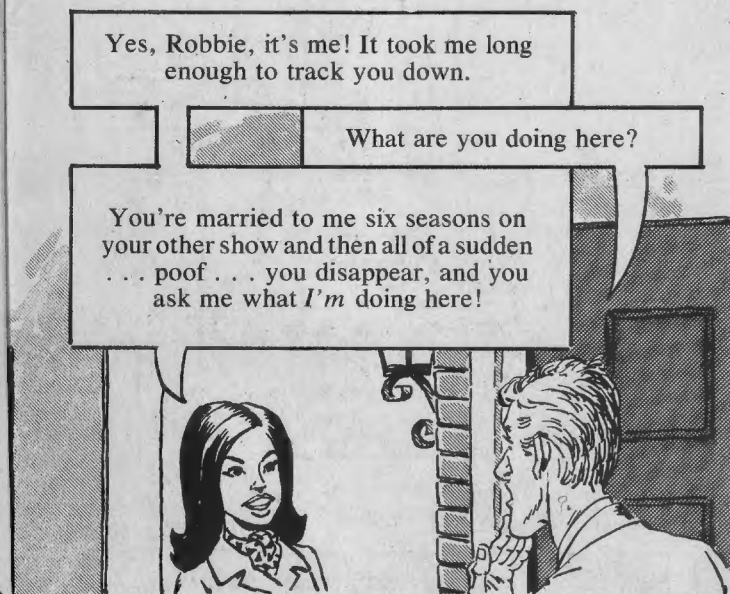

Radiation?

No, honey . . .  
low ratings!

LAURA!

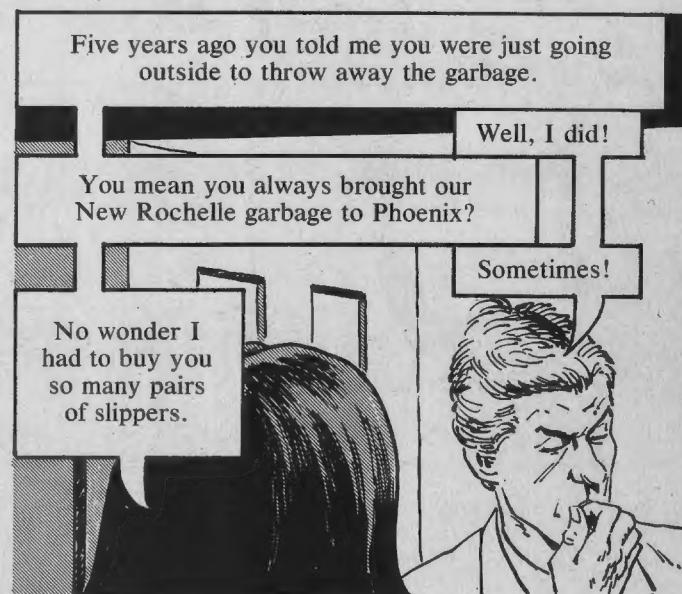

WHEN ALL ELSE  
FAILS...  
TRY COMPLAINING

Yes, Robbie, it's me! It took me long  
enough to track you down.

What are you doing here?

You're married to me six seasons on  
your other show and then all of a sudden  
. . . poof . . . you disappear, and you  
ask me what *I'm* doing here!

Five years ago you told me you were just going  
outside to throw away the garbage.

Well, I did!

You mean you always brought our  
New Rochelle garbage to Phoenix?

Sometimes!

No wonder I  
had to buy you  
so many pairs  
of slippers.

Honey, let me explain  
to you what happened.

Oh, I know what  
happened . . . you  
left me and remarried!

Well, who's he?  
*Your* new husband?

No, Robbie . . . my  
lawyer! I'm suing  
you for desertion!

IF THE SHOE  
FITS... IT'S  
PROBABLY  
NOT ONE OF  
THOSE ON  
SALE!

And who's this other guy?

So you don't even recognize your own little boy, Rickie!

Daddy, you got anything for me?

Hold on Rickie and daddy'll have a nice fat alimony check for you!

Dickie, who is that?

My first wife from another series.

Well, Dickie . . . I guess we all have some little skeletons hidden away in our closet!

And some of us have ghosts, Mrs. Muhr!

What did you do with the two kids from *your* old show, honey? . . . Rent them out to the Brady Bunch?

That old show never had a ghost of a chance.

Robbie, how I've slaved since you left. We needed money, so I had to move out to the midwest and get a job in a newsroom.

Where's Rickie been?

Boarding school.

Which one?

P.S. 197 over on Sesame Street. Who do you think is inside all those puppets.

Rickie?

Well, it isn't a hand!

Sir, my client is suing you for half of everything you own.

Well, she's gonna look pretty silly wearing only half of one of my suits!

In that case, we'll sue you for everything you own.

Me and my big mouth!

THE MAN WHO THINKS HE'S HAVING TROUBLE SUPPORTING HIS WIFE SHOULD TRY NOT SUPPORTING HER!

TALKING WAY OVER THEIR HEADS

Laura, this guy doesn't seem like a very bright lawyer. Why didn't you get Perry Mason to defend you?

Because he fell down a flight of stairs and changed his name to Ironside.

What about Owen Marshall?

He was booked for the season.

You know, Robbie . . . her being married to you and me being married to you . . . that's bigamy!

No, honey . . . that's *big of me!* I have to support you both.

Please Dickie, get rid of her!

Ah, Jem, the least we can do is show Laura a little Phoenix hospitality.

I'm sorry! Laura, would you like a mixed drink? Scotch and Soda? Vodka and Arsenic?

No thank you!

How about a piece of licorice?

First time I ever saw a licorice whip with teeth.

See Dickie, she just doesn't want anything!

Mommy, my "up and downer" is stuck.

She means her zipper is jammed. Isn't she cute, Laura?

Rickie is cute! She's just plain stupid.

Mommy, my "up and downer" is stuck too!

Now *that's* cute!

CRACKED is turning down the job of President because there's no chance for advancement . . .

Girls, stop arguing . . . I know I'm worth fighting over, but it's just too embarrassing!

On second thought, Laura . . . could you use another girl in the newsroom?

Hey, the doorbell! I wonder who it could be this time?

Dickie, how many more television series have you done?

Just these two!

Then I guess it's safe to open the door.

Oh, no!!

Hey, lady, who are you?

I'm the *real* Mrs. Dickie Von Dork, sweetie!

Oooh!

Dickie, I'm suing you for *trigomy*! What have you got to say for yourself?

Just two things. First, it looks like we're never gonna have to depend on the neighbors again to have enough for bridge . . .

And the other?

. . . Is to pack girls, because, next week, I'm going to use you three in the biggest deal Monty Hall ever made!

An Important announcement from the publisher of CRACKED! Everybody knows that the first cartoon ever drawn was a so-called 'Desert Island' cartoon. And by now we're all sick of them! In past administrations, there used to be a press conference every month . . . but not with Mr. Nixon's. He seldom has one because he favors direct speeches instead. Well, **CRACKED** thought it was about time for another meeting of the minds and thus went out and assembled all of the nation's top reporters together. So, without further ado, if you'll all rise, we now present . . .

# RICHARD NIXON'S PRESS CONFERENCE

Ladies and Gentlemen of the Press . . . Before we begin with the questions, I would like to issue a statement. Many have accused me of not keeping campaign promises. Well, I want to say this about that! As of today, the last of our men has been withdrawn from Sector 3. Yes, as promised, the unilateral withdrawal of all Republican spies from Democratic headquarters is now complete! First question please . . .

Sir, is Henry Kissinger the lady's man he's made out to be?

Only his hair dresser knows for sure!

Mr. Nixon, how is inflation coming?

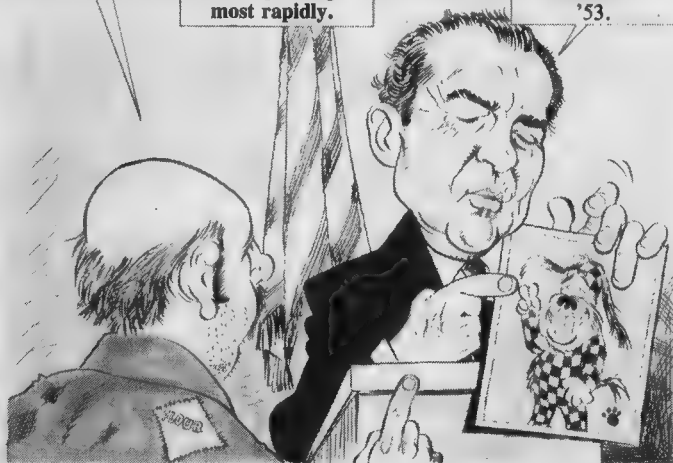

I'm proud to say that's the one program of mine growing most rapidly.

But sir, isn't the idea to curb inflation?

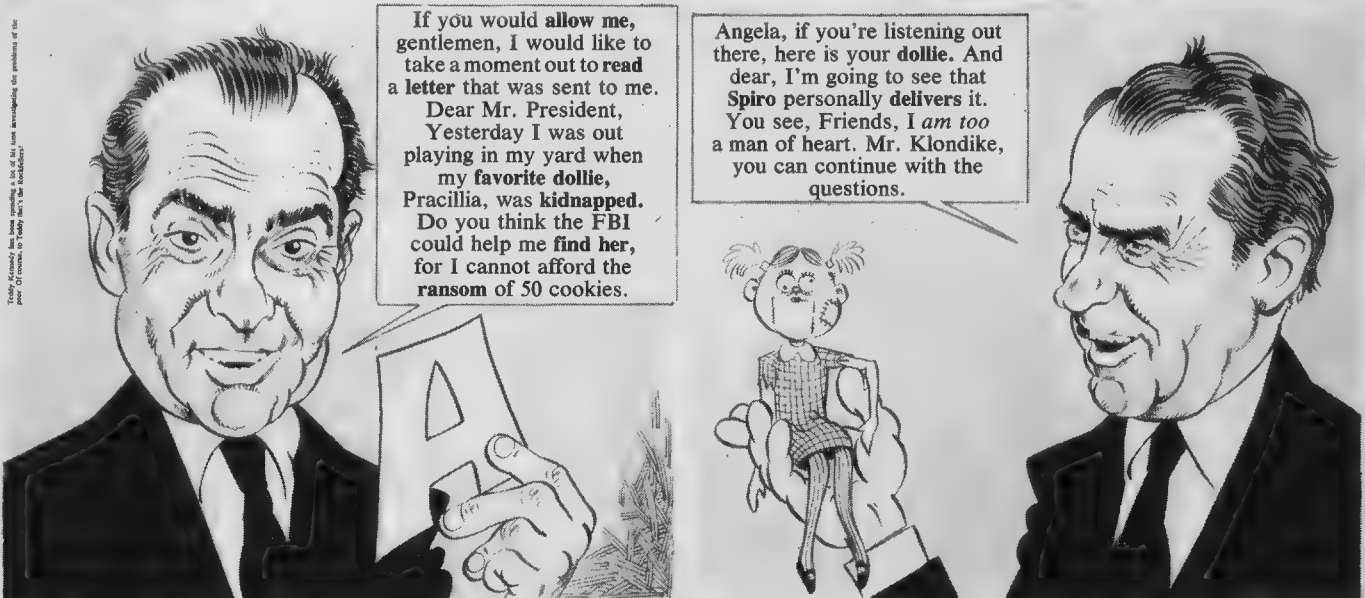

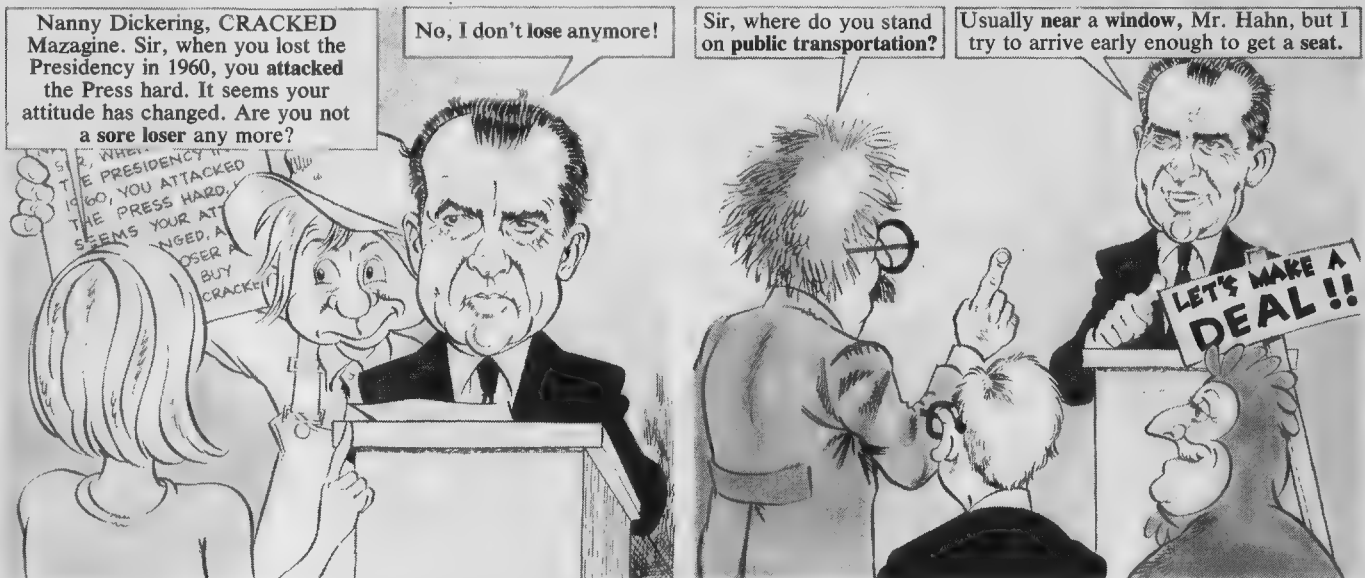

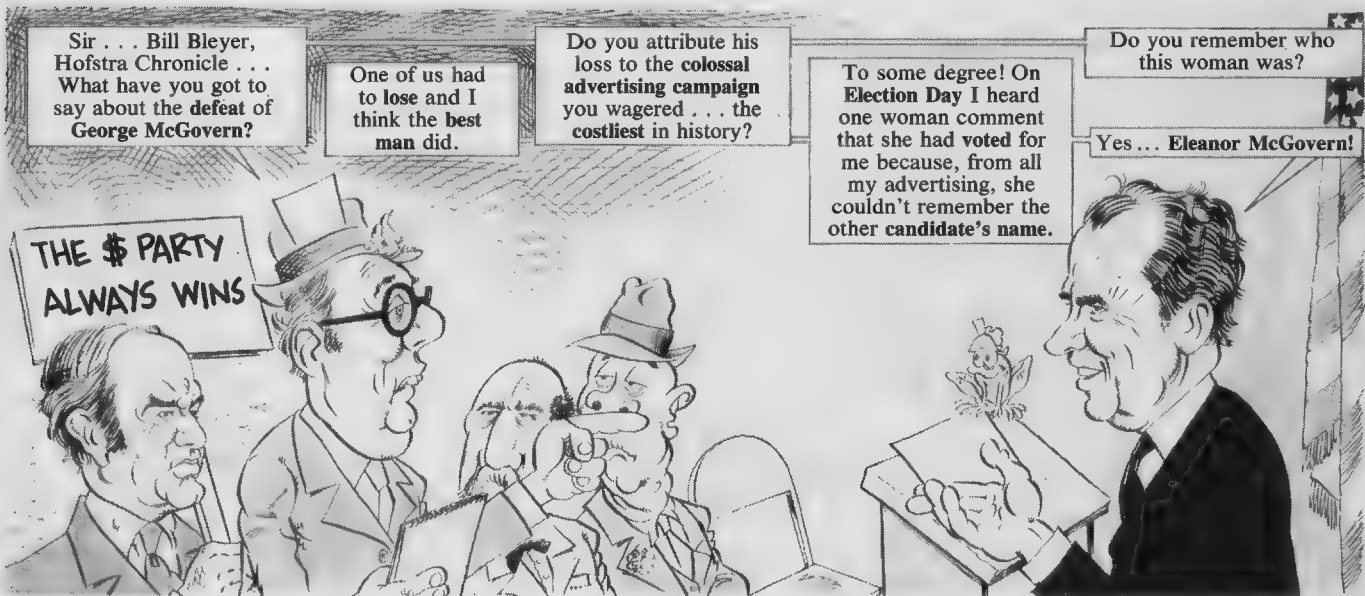

I had better luck curbing my dog Checkers in '53.

Mr. President, do you think you're a living legend . . . a monumental inspiration to all men?

I've often thought that, but I don't care to talk about that subject at this time. However, I do want to thank you for asking that, Tricia!

Thanks, Kennedy has been spending a lot of his time investigating the problems of the poor. Of course, it's really hard to find the problems!

Mr. President, crime has risen more than 50% in the first 6 months of this year. Do you have any explanations as to why?

This is because our law enforcement agencies were operating at a 50% reduction.

Why is this?

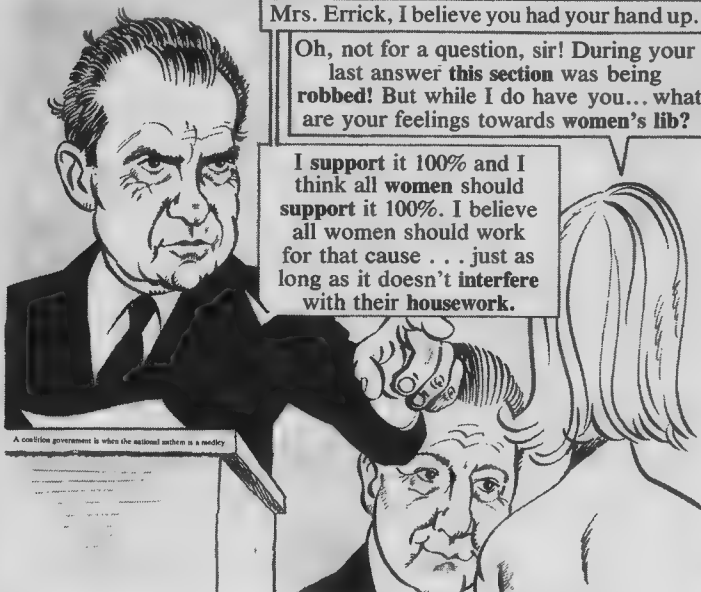

They were all out searching for little Angela's dollie . . . but things are getting better.

Mrs. Errick, I believe you had your hand up.

Oh, not for a question, sir! During your last answer this section was being robbed! But while I do have you... what are your feelings towards women's lib?

I support it 100% and I think all women should support it 100%. I believe all women should work for that cause . . . just as long as it doesn't interfere with their housework.

Sir, what is the real reason you've been travelling so much . . . like to Russia, China and Japan?

Peace is a part of it, but you see Mr. Brintley, the Presidency in this country only lasts 8 years, so I've been flying about checking out future job openings. After '76 I've got to pay those flight expenses myself.

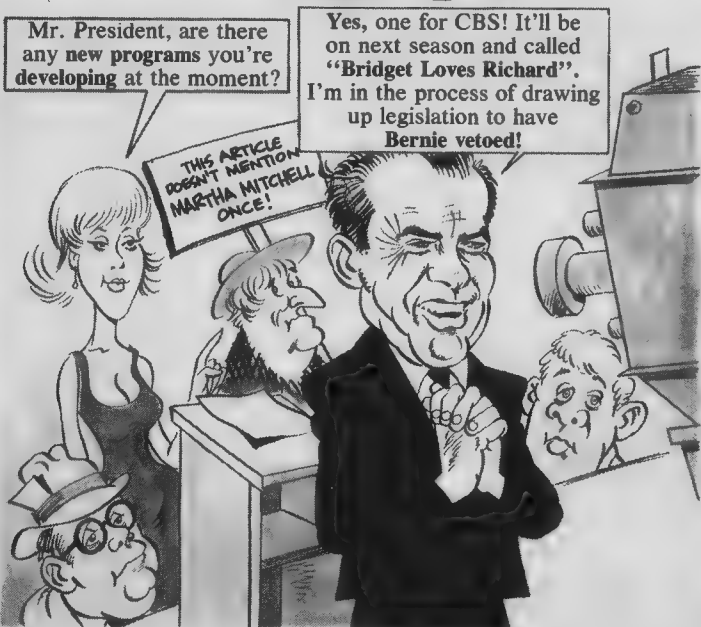

REMEMBER ME?

Mr. President, are there any new programs you're developing at the moment?

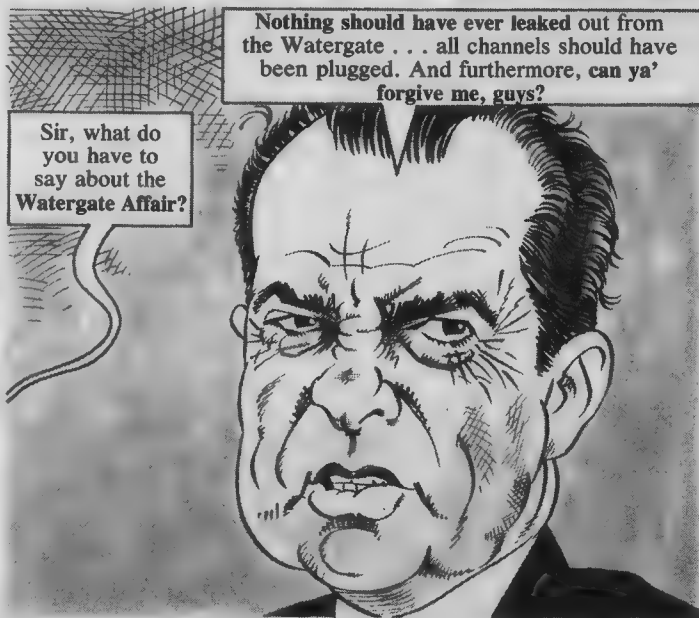

Yes, one for CBS! It'll be on next season and called "Bridget Loves Richard". I'm in the process of drawing up legislation to have Bernie vetoed!

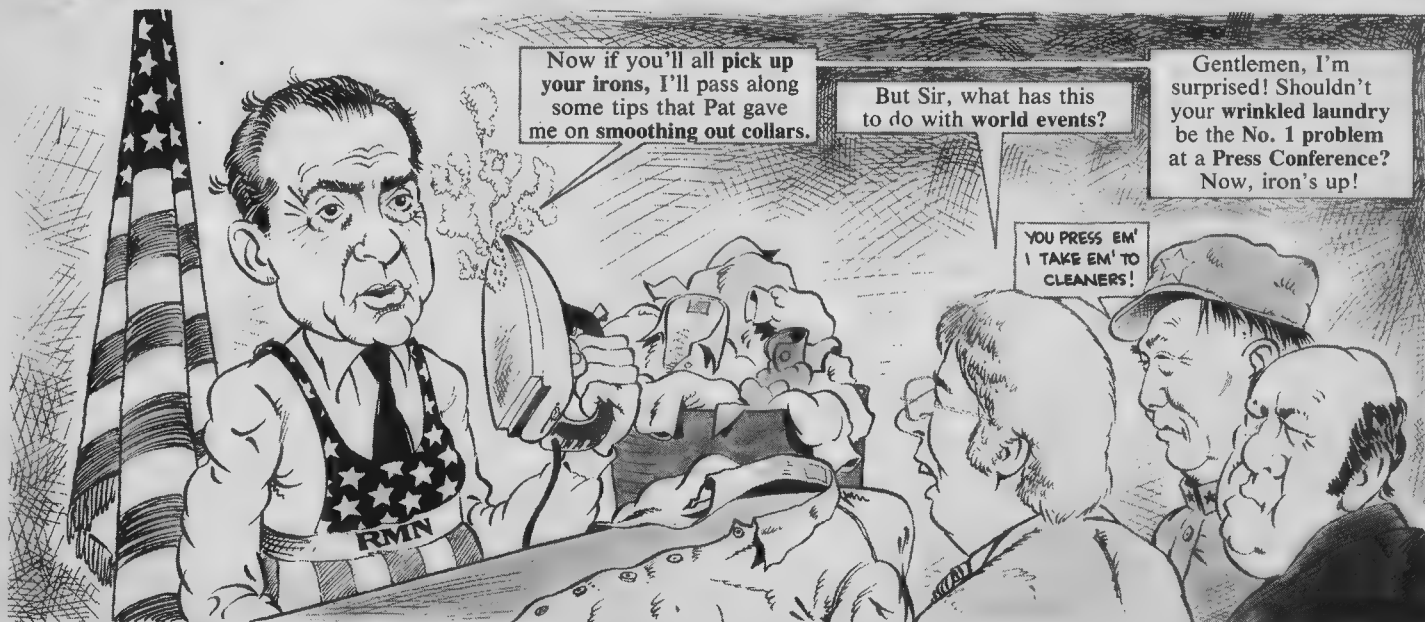

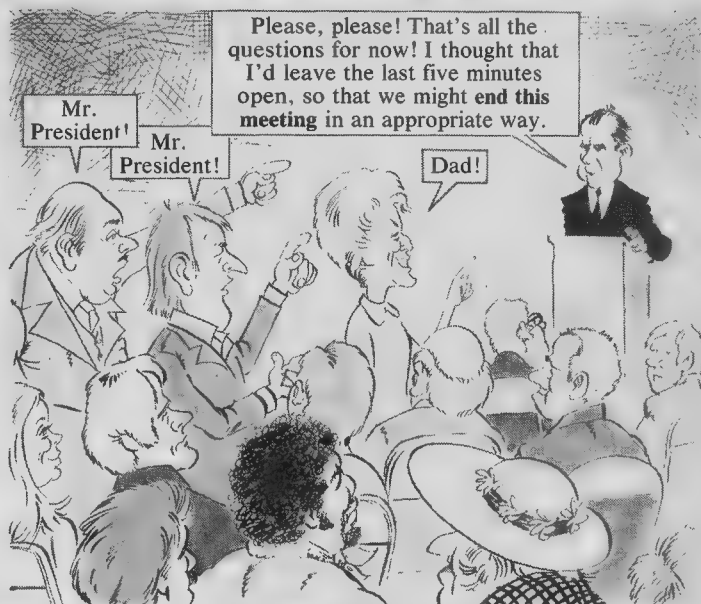

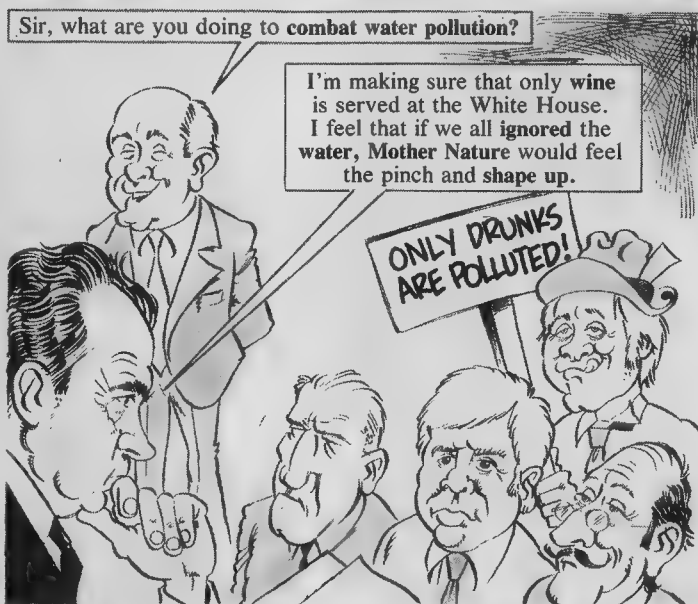

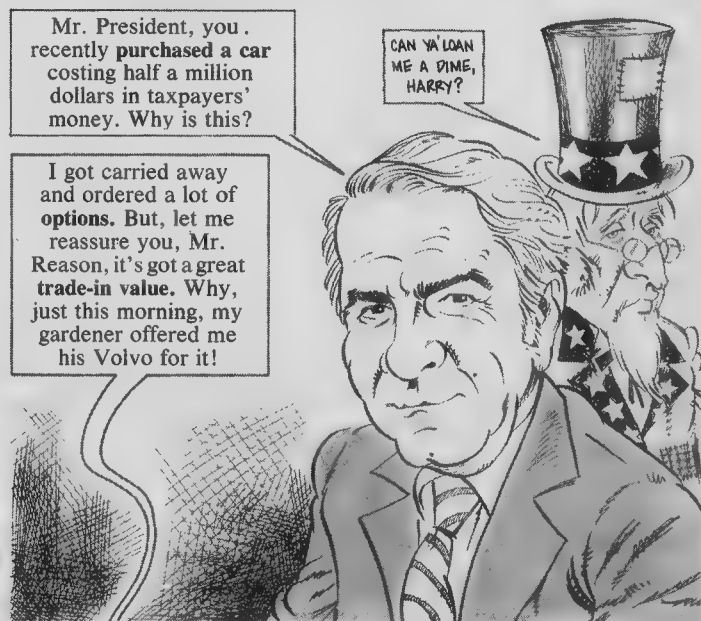

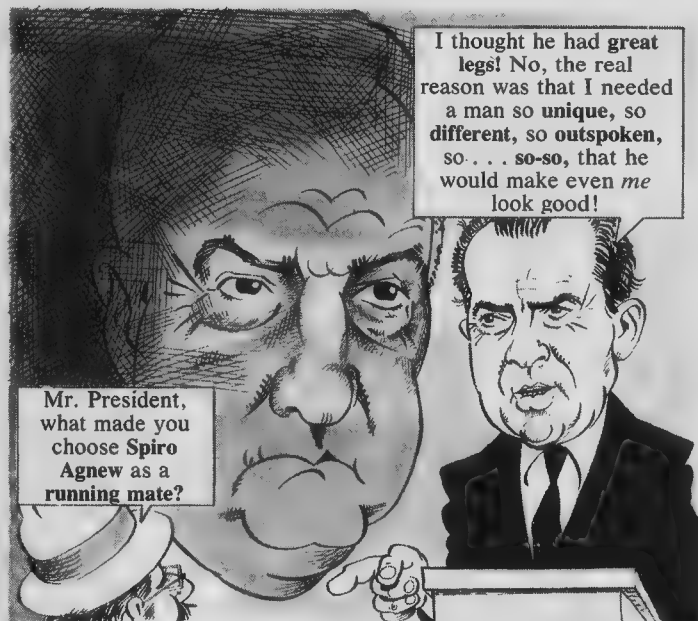

THIS ARTICLE DOESN'T MENTION MARTHA MITCHELL ONCE!

Nothing should have ever leaked out from the Watergate . . . all channels should have been plugged. And furthermore, can ya' forgive me, guys?

# THE WORLD OF MR. OREHEK

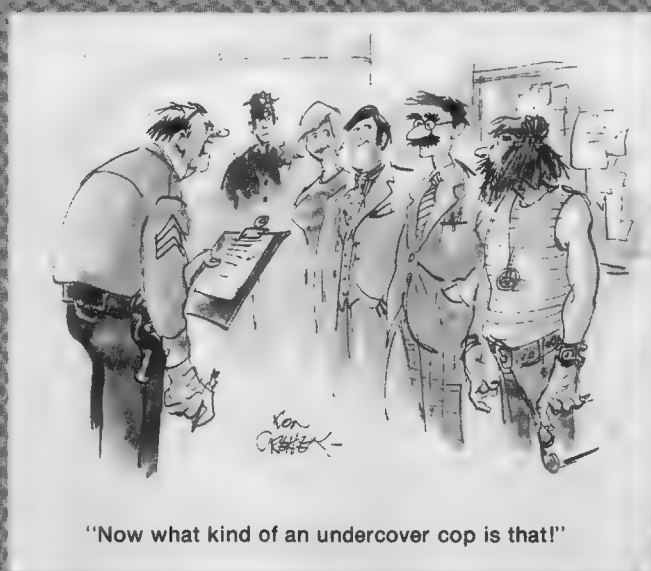

"You think you're a dog? Off the couch!"

"If I were you I'd see the Better Business Bureau!"

"He had a very bad experience with a bird once!"

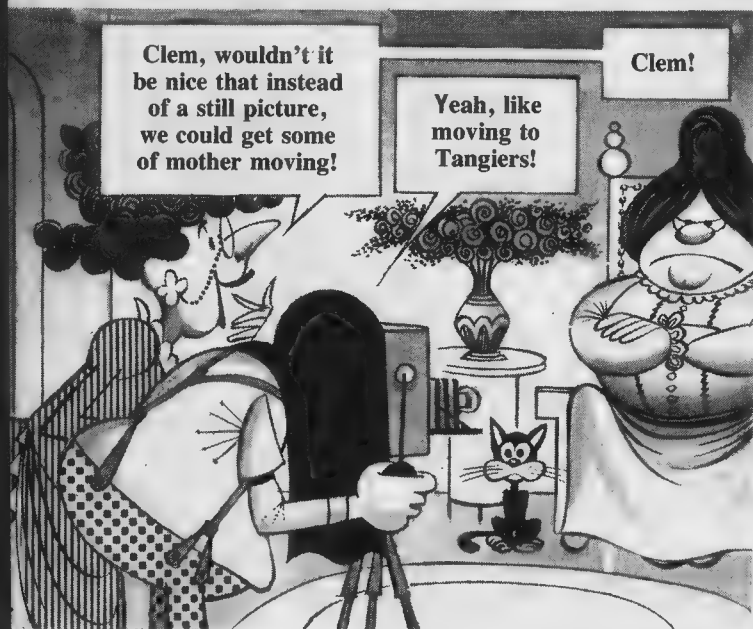

Today, you probably take the cinema for granted, but did you know that it has a long "moving" history? (clever, huh!) Well, we at CRACKED decided to help you overcome another phase of your ignorance. Last week, we spent countless hours in the library digging up facts, looking up names and 28 minutes later we came up with this informative article which we cleverly titled . . .

# A CRACKED HISTORY

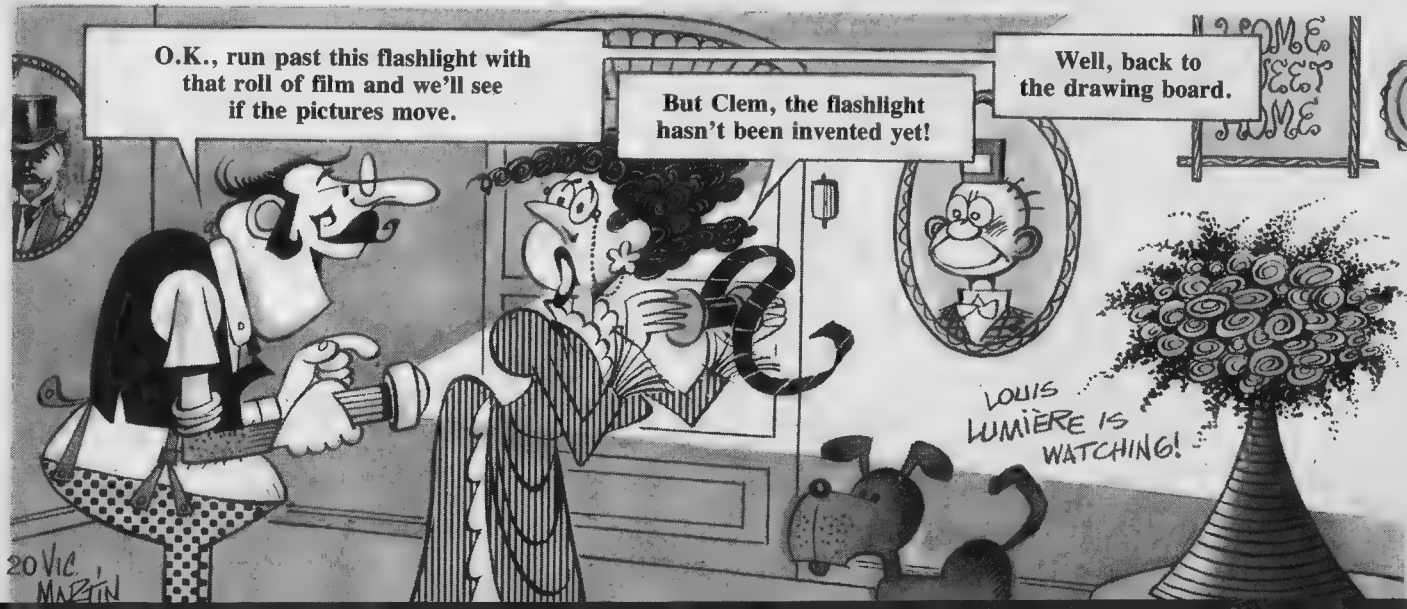

# OF THE MOVIES

The idea of making a moving picture came about in a strange way.

Once the idea was planted in his head, Clem actually set out to invent a moving picture.

Several months later . . .

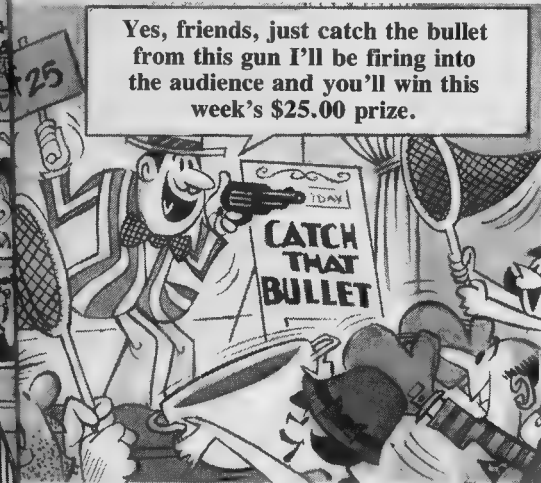

But finally someone did invent the moving picture. As to who or when it was is of little importance to us. (Well, we didn't promise you a complete history of the movies . . . only a **CRACKED** one.)

The motion picture industry as we know it today, started off with the silent era. A typical scene from a movie of that period follows:

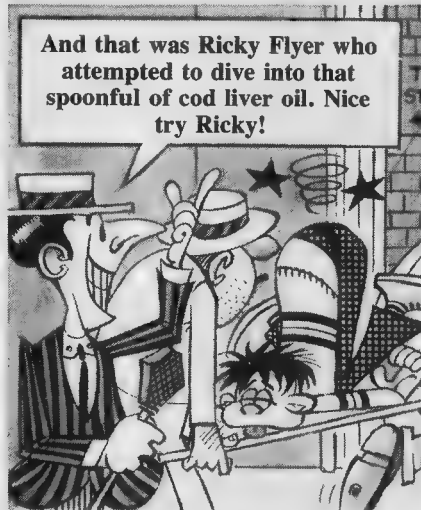

In the '30's the depression came, so movies became an escape and, as an incentive to go, games were played in the theatre like . . .

Yes, friends, just catch the bullet from this gun I'll be firing into the audience and you'll win this week's \$25.00 prize.

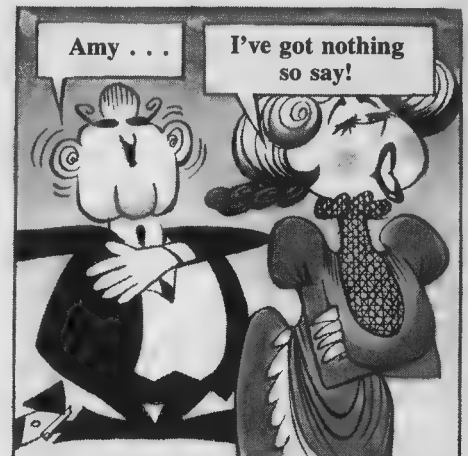

Along with films, there were vaudeville and amateur shows as added attractions.

And that was Ricky Flyer who attempted to dive into that spoonful of cod liver oil. Nice try Ricky!

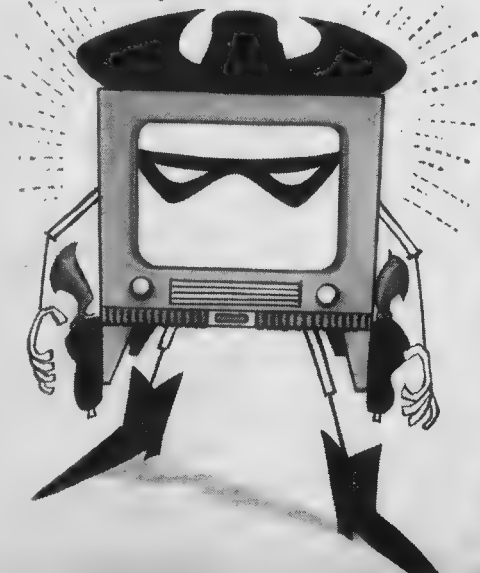

If you noticed, there was very little to hear, so sound was invented. Now there could be scenes like this:

Things were flying when the '40's came and big, gaudy musicals about anything were the rage.

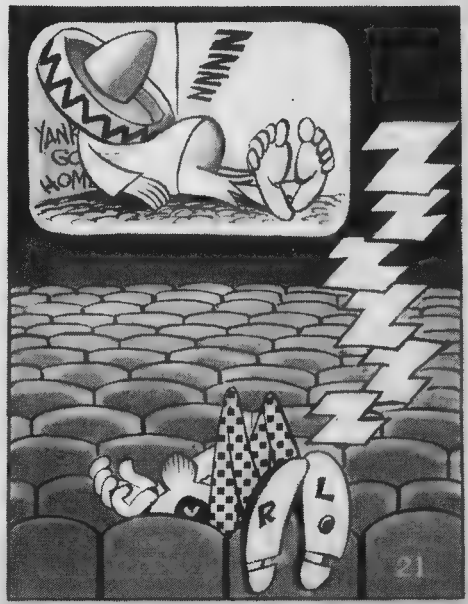

But then in the '50's, the movies arch enemy arrived.

Yes, the movies went from . . .

. . . to

So new gimmicks were tried,  
like 3-D . . .

. . . stereophonic sound . . .

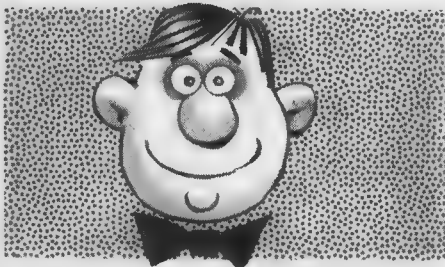

. . . and smellovision!

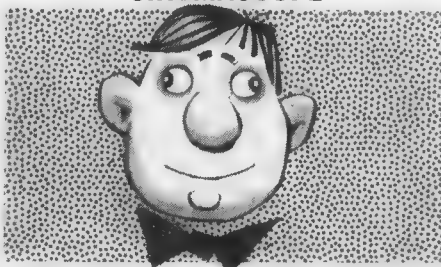

And to compete with the smallness of the TV screen, movies started emphasizing the bigness of the movie screen by creating larger and larger sizes.

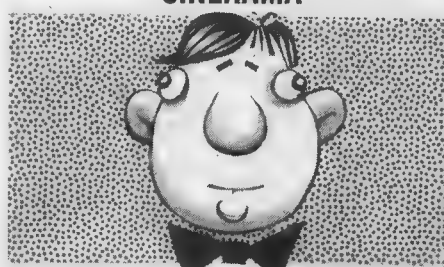

### STANDARD

### CINEMASCOPE

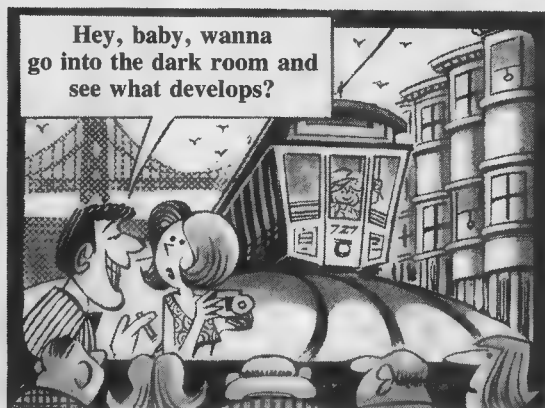

### CINERAMA

VIRGINIA  
IS A G

Then in the fifties, the "art" film was introduced. This was merely a standard movie that told a simple story in such a confusing way that few people understood it . . . thus it was art. With these movies, new camera angles and techniques were introduced. For example . . .

Shot of San Francisco in a standard movie. Shot of San Francisco in an art movie.

Hey, baby, wanna go into the dark room and see what develops?

Sam, is that a spider on the screen?

No dear, it's only underarm hairs.

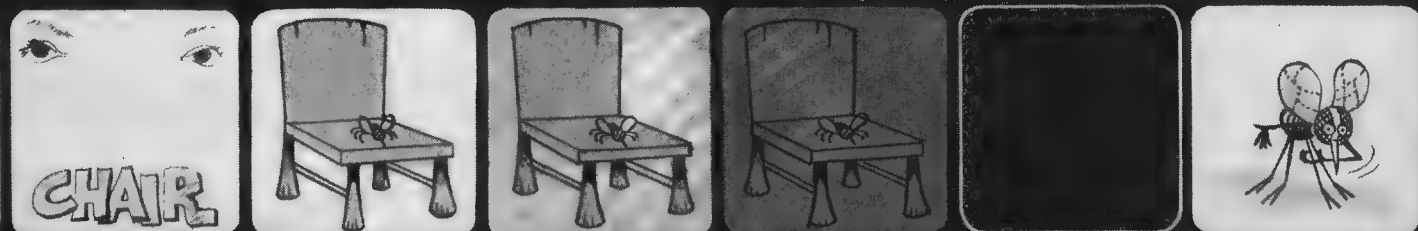

Now before we move any further, we must show two other related things that happened in the movie industry. One was the raising of admission prices and the complication of who pays what . . .

. . . and the second was the strange things that happened at the candy concessions.

1940		1950	
ADULTS	— .25	ADULTS	— .75
CHILDREN	— .10	CHILDREN	— .25 (Under 12)
1970			
ADULTS	—2.50	SENIOR CITIZENS	—1.25
STUDENTS (under 18)	—2.00	CHILDREN (under 12)	—1.00
STUDENTS (over 18 with I.D.)	—2.25	HOMELY GIRLS	—1.29

Coming into the 1960's, the underground movie developed. Different from the art films of the '50's, these were made so that absolutely **no one** understood them. However, no one was willing to admit it. One typical film was . . .

Came the late '60's, and everyone knows what happened.

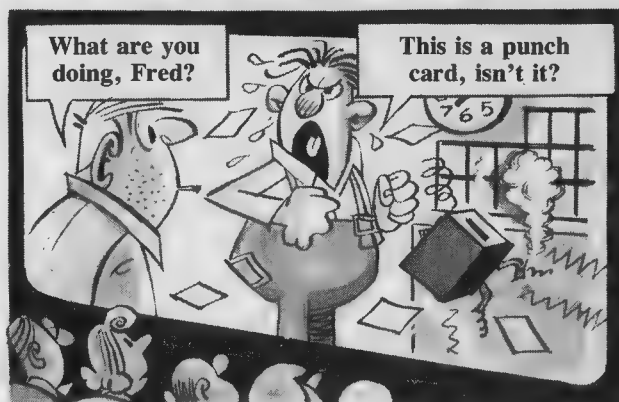

1950 wardrobe rack for one movie

1970 wardrobe rack for 11 movies

Came the '70's and everyone was sick of sex. Now violence was the craze.

And what's to come in the future? Well, the biggest thing on TV right now is old movies, so, we predict that in no time, at your favorite local movie, you'll be seeing . . .

THIS ARTICLE HAS BEEN RATED

I'm so sick of old movies on TV. It'll be refreshing for a change to go to the movies and see an old TV rerun.

I saw the whole thing! I saw the whole thing! What happened?

O.K. Buddy, how fast were you going?

Officer, my car was parked in the driveway at the time.

Were you speeding?

I was in the house eating.

How fast?

But Pop, I'm telling you it wasn't my fault. I was just turning the corner when this thing got in the way.

What thing?

That guy's car!

Officer, the accident was definitely this man's fault.

I keep telling my grandson, "I don't mind if you drive . . . but do you have to take the car when you do? They're so dangerous".

My son would never have hit that car if it wasn't parked so close to the corner.

Lady, the guy's car was originally parked in his driveway. It was your son, cutting across his lawn, that pushed him into the street.

Well, if the man was considerate, he would have had a fence around his property.

You don't know how to drive! You must have been drunk! People like you should have their licenses taken away!

Calm down lady, I'm only the paperboy.

He did before your son arrived.

When I heard the crash from my house, I thought it would be a lot better than this.

So did I! What kind of accident is it without any bleeding bodies? Where are the bleeding bodies?

26

American cars certainly aren't built well. Look at that awful dent!

Not that dent! I'm talking about the one you made when you leaned on the trunk!

Yeah, one little accident and a car needs hundreds of dollars in repairs.

I'm from the Pine Park Guardian. Can we get some of you people to please lie under one of the cars?

What for?

Well, you heard those ladies. Who wants to read about an accident where no one was maimed, injured or killed.

Do you know that they're still waiting for their insurance man to come?

How'd he get there so fast?

Well, the least I can say is that when I had my accident, my insurance man was there right on the spot.

My son had an accident once. He went through a stop sign.

He was driving the car I hit!

It's very dangerous when you don't obey signs.

What obey? He was driving too close to the sidewalk and went right through the sign!

We're in luck, Bill! I just found an ice cream man who could easily pass as an ambulance driver.

My son was once in an accident too! He was hit by a train.

It does too! A car drove him to the hospital.

But why tell me that here? It's got nothing to do with automobiles.

I'm so glad that this accident happened now.

Well, that and the fact that at this time there's usually nothing worth watching on TV!

I haven't seen you in so long, Mabel, and you only live down the block. Why, the last time we talked was ...

It was when the Jackson's house burned down.

Hurry! Hurry! Get your souvenirs of this great accident! Three bits of broken glass for a quarter!

Wait a minute! You're the guilty driver's brother! How come he's letting you sell souvenirs of the accident?

Well, he's gotta raise money in a hurry to buy something he desperately needs.

What's that?

Auto insurance!

That's right! Well, accidents and fires certainly do help keep the neighborhood in touch, don't they?

Today we hear a lot about prison reform. It seems the public on officials to make the prison better place to live in. If all other extreme, in which prisons become a sheer paradise

## 7. REHABILITATION

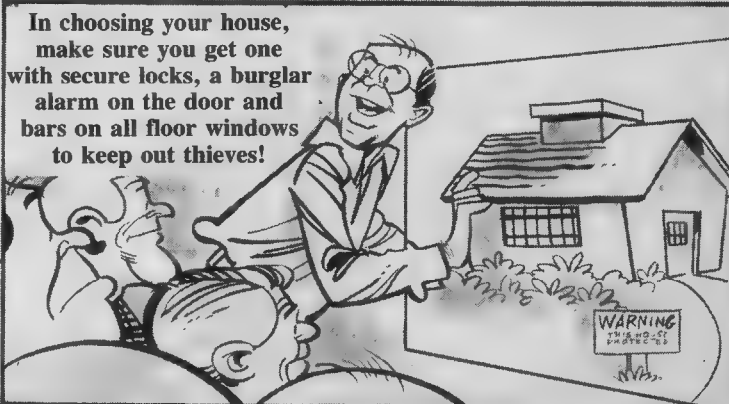

**HEAVENWORTH** also offers Special Education courses that help rehabilitate the inmate so he'll be better able to fit back into the society he's been away from for so long ...

He'll learn how to commute with other people:

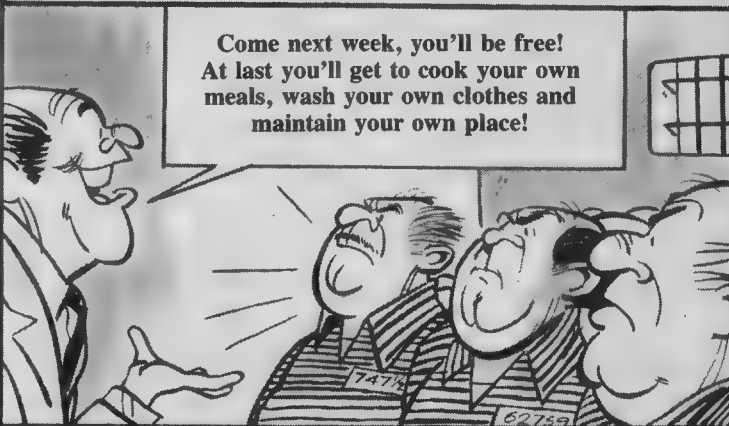

He'll learn how to make money the honest way:

He'll learn how to live in a nice house instead of a cell:

And mainly, he'll learn how to survive in life on his very own:

But even a campaign to use less power is a mere stop-gap measure. Since there is a limited supply of land and resources, scientists predict the world is headed for collapse unless economic growth is halted. Accordingly, to survive, man will have to give up his zeal for ever higher standards of living and adopt a more relaxed life-style ...

These self-centered clods, with their constant need for possessions, account for all our power and pollution problems. They care little for the kind of world they leave their children.

These men are concerned with the world's fate. By limiting their activities and wants, they are insuring the survival of mankind, and a safe, healthy, planet for all children.

## BLACK WIDOW SPIDER.

\$1.00 Ea.

A real horror, but great fun.

In most places in these United States, if you haven't got a car, you just can't get around much. Let's face it, a car is essential . . . and automobile manufacturers know this. That's why they . . . well, why explain everything here when we've got five pages of more inside facts than you'll ever want to know as . . .

# CRACKED

## INTERVIEWS THE

# AUTO KING

Hi, Nanny Dickering here again, and this month CRACKED has flown me to Detroit in order to interview Mr. Irving Krud, President of Sergeant Motors and definitely America's Auto King!

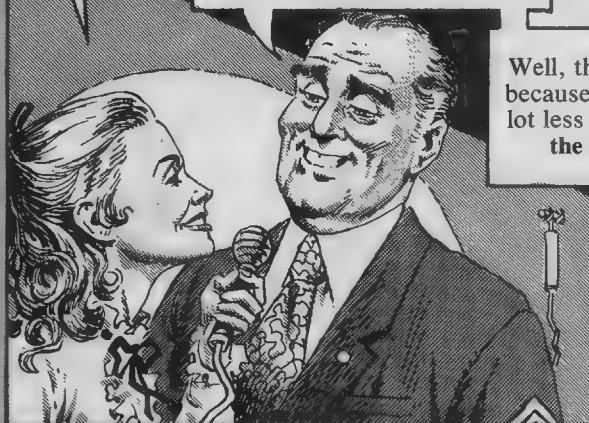

Greetings, Mr. Krud.

Oh, I don't know if I should really be speaking to you, Nanny. You did FLY here, you know!

But statistics show that flying is 100 times safer than driving.

Well, that's only because there's a lot less planes on the road!

ASSEMBLY LINE

SEVERIN

Getting right under way, Nanny, here's our first stop . . . the assembly line.

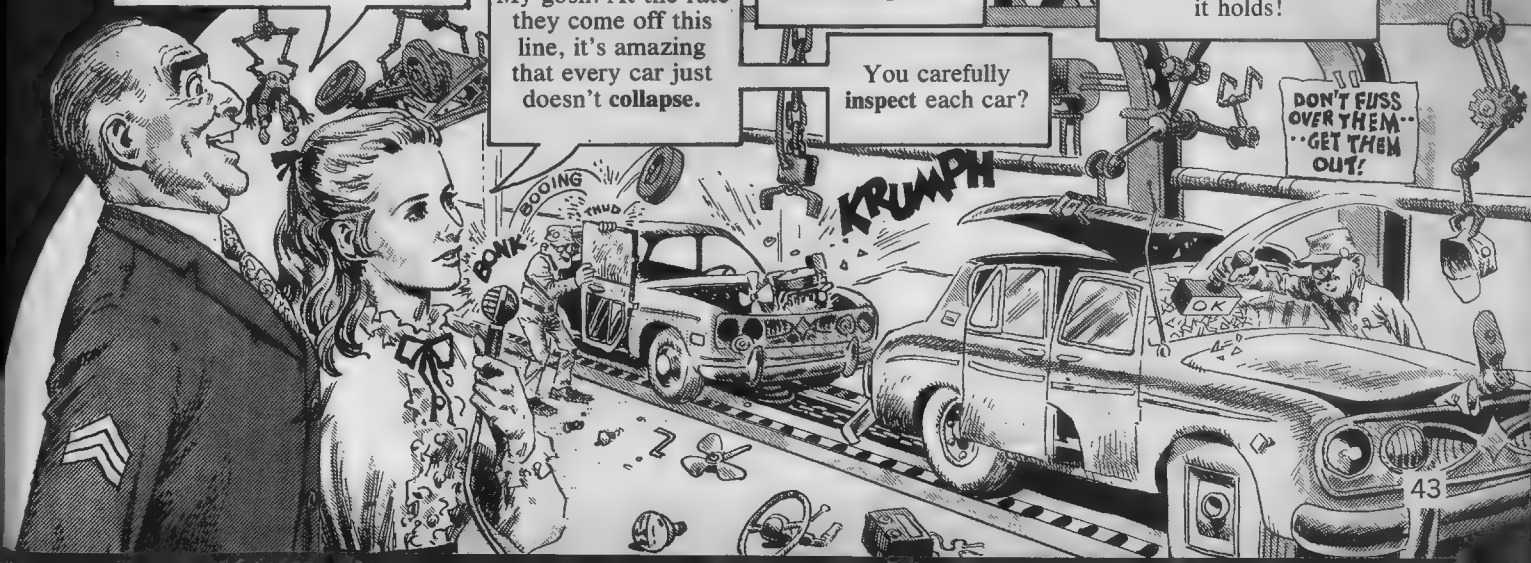

My gosh! At the rate they come off this line, it's amazing that every car just doesn't collapse.

That's because of the final step before completion.

You carefully inspect each car?

No, we quickly dip each car into a vat of chewing gum and pray it holds!

DON'T FUSS OVER THEM... GET THEM OUT!

Seeing the assembly line reminds me of auto recalls. They must be nerve wracking.

They are! Do you know what it costs us in postage to send out all those letters!

I was thinking more in terms that a **minor fault** could actually kill someone.

Yeah, but even if it did, we'd still have to send him a letter and, like I said, that costs money!

SERGEANT MOTORS CORP.

EXIT ONLY

DON'T CALL US, WE'LL RECALL YOU.

Now over here is our test drive center. Notice how each car is being sent through conditions simulating a desert . . . and yesterday we drove them through 20,000 ice cubes simulating extreme cold. We give these cars plenty of punishment.

Do you ever drive the test cars on city streets?

Nanny, I said we send them on punishment rides, not suicide missions!

Do you have any feelings towards Ralph Nader?

The next time he goes out riding, may his pants get caught in his bicycle chain.

In this area here, is our options department. You realize 90% of the profit from selling a car is in options!

What new ones have you come up with for 1974?

Well, here is a \$50 **buzzer** system to tell you when the radio is on.

Isn't that kind of dumb?

Here's another good one . . . this button washes the inside of your hubcaps.

What could be more useless than that?

Our \$300 doorbell option!

Nanny, options don't have to be sensible . . . only expensive!

CRACKED is going ice-skating and making a figure eight the hard way . . . two fours

With the costs of options and all, have you ever looked into ways of reducing the price of a new automobile?

Of course! Why right behind you is our new \$1500 model . . . unfortunately it's not selling too well.

How come?

I guess people aren't ready yet for a car made of papier mache'.

Hey, Nanny! Step into this car. I want you to listen to the great stereo system we've built in!

With all this volume, isn't it dangerous that you might not hear something going by?

What?

I SAID, ISN'T IT DANGEROUS ...

WHAT?

I asked you if it's dangerous having something playing this loud in a car. You might not be able to hear things going by.

Nonsense! You can always buy our optional hearing aid that increases your audio abilities by 50%.

Have you come up with any new safety devices for 1974?

Well, yes! we've developed a no-seater car.

No-seater?

You see, Nanny, it's not the cars that kill, it's the people in them! So we felt that if we eliminated all the seats, we'd eliminate the cause of all accidents!

How do you feel about air bags in a car?

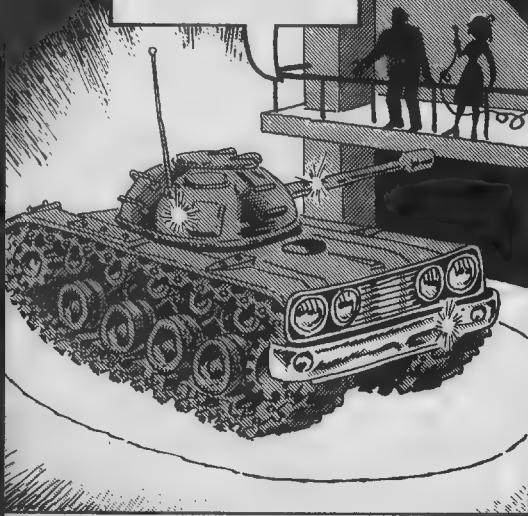

If a guy wants to take his wife out driving, that's his prerogative!

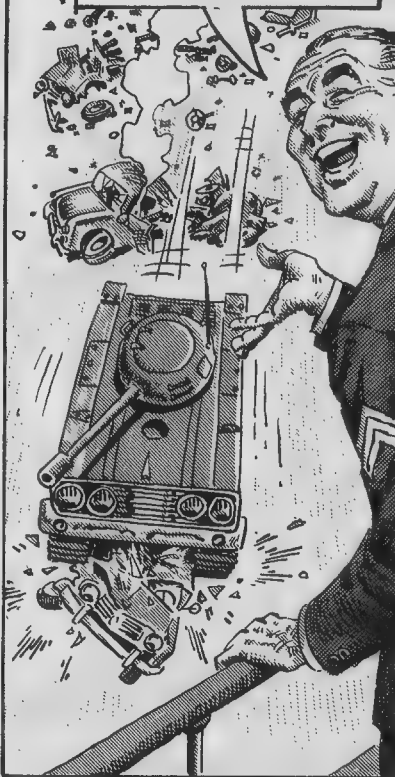

Now, Nanny, if you'll look over here, you'll see a prototype of one of the safest cars we've ever developed. It'll be out in 1975 and will cost \$21,000.

Oh, you're welcome, Nanny, but you don't have to thank me for this exclusive scoop.

Tanks?!?

Notice the energy absorbing bumper? Until I found this, I'd been using pedestrians.

Since you brought it up, what do you think of the new safety regulations set down by the Federal Government?

Well, I think they're fine, but a little too strict.

How's that?

Well, you start creating strong bumpers and the next thing they'll want is a whole car that'll last . . . maybe even as long as 2 years!!

Do you feel that cars pollute?

Nanny, a car by itself is pollution-free. It's the person getting into it and starting the motor that's polluting.

**HORSES POLLUTE MORE THAN CARS**

SUGGESTION BOX

So what is your company doing about this?

Well, my company has come up with a plan to end pollution. If every road began at the top of a hill, there'd be no need to start a car . . . you could just roll down! Therefore, it's up to our highway department to re-design all of our roadways!

WONDERFUL IDEA # 4321

But Mr. Krud, that would take billions of dollars in taxpayer's money!

What's money when you're ending pollution.

Why don't auto-makers put up some of the funds?

Personally, Nanny, I think we should just keep the present system and forget all about pollution . . . it'll blow over!

Don't you think car advertising is **deceiving**? Like, for instance, this ad claims your big car to be the **quietest** on the road.

It is! You see, we haven't quite **perfected** the **engine** yet and every ten miles the motor cuts off. Now you can't get any quieter than that!

**OUR BIG CAR IS THE QUIETEST ON THE ROAD!!**

HOSPITAL ZONE

TIPPY TIPPY TOE

Speaking of defects, I once had a new car of yours and when I went to **honk the horn**, it fell off into my lap.

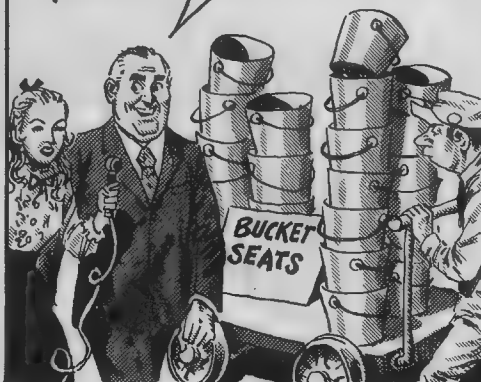

Was that our 1969, \$8,000 luxury car?

Yes, it was!

Well, that shouldn't have happened.

That's a relief!

That year only the **door handles** were supposed to fall off.

You know, Nanny, since the invention of the auto, we've improved our cars vastly.

In what ways?

Well, ten years ago a car would only go 4,000 miles before an **oil change** and now we've got it down to 1,000.

How is that an improvement?

How? We now get to change the oil four times as much as before!

Which brings us to the cost of **servicing** and **repairing** an auto. It's ridiculous!

I agree! Car makers should be the only ones allowed to repair cars.

If that happened, would repair costs rise?

Never! They'd start out so **high**, nobody would know what to raise them to!

**KEEP REPAIR COSTS DOWN... DOWN IN OUR SAFE!**

You know, sir, I just don't think your cars are worth the money.

Nanny!! Every auto I produce I back up with my good name!

But, sir, Your name is **Krud**!

And I'll let you in on a little secret . . . so are most of my autos!

Thank you, Mr. Krud, and with that, this is Nanny Dickering, signing off and returning you to **CRACKED**. Ah, Sylvester, don't cancel that **plane reservation** of mine!!
